

7 August 1959

MEMORANDUM FOR: DCI

SUBJECT : CIA Support of Draper Committee

1. Apropos your dinner with the Draper group, we have, per your instructions, provided them with a great deal of support over the last seven months;

a. I have kept up a regular flow to them of WAFs and other intelligence of interest, particularly on the Bloc trade and aid campaign. We have also answered numerous requests for specific data in this and related fields.

b. Following your briefing last December we have provided special studies on the Nature of the Soviet Threat, summaries of Communist capabilities in specific countries, an estimate on the relationship between the MAP and the trend toward military regimes, and commentaries on the effect of MAP programs in India-Pakistan and Iran.

c. We have provided several useful charts for committee reports and extensive graphic assistance from OCI.

d. I have sought to remind key committee staffers that OISP is an important part of the US aid programs and merits coverage in the Draper report.

R. W. KOKER
